The Painter's Pyramid® Exhibiting at The 2008 International Builders' Show®

The Painter's Pyramid® Also To Be Filmed by HGTV at the Show

ORLANDO, FL (February 11, 2008) – K & M of Virginia, Inc. today announced its flagship product, the Painter's Pyramid®, will be displayed at the 2008 International Builders' Show this week. K&M of Virginia, Inc. is also delighted to announce that the Painter's Pyramid® will be filmed by HGTV at the show.

The show is being held February 13-16, 2008 at the Orange County Convention Center in Orlando, Florida. Produced by the National Association of Home Builders, the show is expected to draw more than 100,000 attendees representing all facets of the building industry.

More than 1,900 exhibitors will showcase their latest products and services. The International Builders' Show will also feature nearly 300 education sessions, taught by nationally recognized speakers and designed to help attendees stay current on industry trends and issues.

The Painter's Pyramid® provides stable pinpoint support so painters can coat both sides of an object without waiting for the paint to dry. The versatility of Painter's Pyramid® enables homeowners, craftsmen, artists and hobbyists to save time and effort.

"I am pleased that the builders, developers and industry experts attending this show can benefit from the many uses of the Painter's Pyramid®," said Mike Bucci, president of K&M of Virginia, Inc. "The fact that HGTV picked the Painter's Pyramid® as a product to receive coverage on its show demonstrates the tremendous value of this tool."

Be sure to visit the Painter's Pyramid® at the South Hall, Booth No. 12659. Watch Mr. Bucci's interview with HGTV on February 14th at 9:30am.

About The Painter's Pyramid®

The Painter's Pyramid® is a three-sided pyramid made of a specially formulated, lightweight plastic that provides superior strength and adhesion resistance. Its durability allows you to paint all sides of an object without sacrificing quality or waiting for the paint to dry. Its versatility saves time and effort for a wide variety of painting and crafting needs.
