

4 pyramids easily support a door weighing up to 200#.

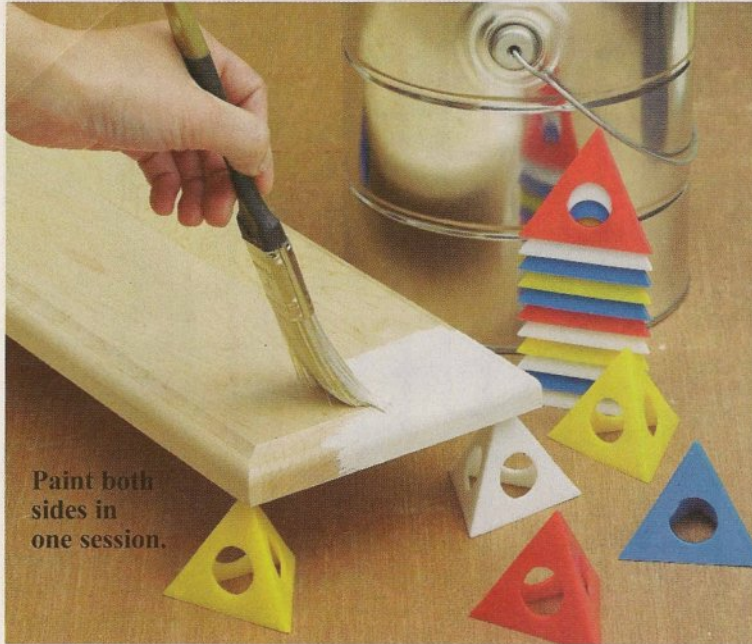

Colors may vary.

Make Life Easier® (800) 522-0227

Painter's Pyramid™

No need to wait for paint to dry. Put these clever supports to work. They let you complete two-sided painting projects in one session. Balance door or shelving atop pyramids . . . paint top surface . . . turn project over then paint edges and other side. Tiny contact points won't leave marks or penetrate work material. Made from strong yet lightweight nonstick plastic; impermeable to paints and solvents. And you can attach them to sawhorses as needed. 2" high; stackable, for easy storage. We'll send the set of 18, in colors as available.

Paint both sides in one session.

Strong reusable Cable Clamps®.

Air and water hoses. Electrical or extension cords. Rope, power tools, kitchen appliances. Just a sample of what you can secure with these infinitely reusable clamps. They replace tape, ties and hook-and-loop products. Open up wide for loading then ratchet closes for a custom grasp: just push the trigger for quick release. Made from rugged polymers and stainless steel. We'll send one each small, medium and large Cable Clamp plus a single huge Mega Clamp™ for bundles up to 4" in diameter.
