Painter's Pyramid

Mike Bucci invented the Painter's Pyramid™. He enjoys the satisfaction of home improvement projects but, as a busy professional, his time is limited. One day while painting multiple shelves, Mike devised a "better way" to paint using the Painter's Pyramid™. Mike's business and engineering background enabled him to engage technical, business and legal experts to bring the Painter's Pyramid™ to market. The Painter's Pyramid™ currently has multiple patents pending. The Painter's Pyramid™ is a durable and versatile tool that allows you to save time and effort by painting an entire object (top, bottom and sides) without waiting for the paint to dry or sacrificing quality.
