Painter's Pyramid™ www.painterspyramid.com

The Painter's Pyramid™ saves time and effort by making it possible to paint an entire object (top, bottom and sides) without waiting for the paint to dry. Complete shelves and other two-sided painting projects in one session. Easy to store (lightweight and stackable), less mess and cleanup, minimal contact point requires no touch-up. Nonstick material is impermeable to paint and solvents. Attaches easily to sawhorses and work tables. Works with all types of paints and stains. Holds up to 200 lbs.

Where In The World Are You Getting Your Wipers?

**Try Kamen, the quality wiper company
that can make a world of difference**

- More than 30 grades of absorbent knit and woven wipers
- Wide selection of non-woven and disposable wipers
